ILT2014 **VIRTUAL** REGISTRATIONS
A new way to be there!

An ILT2014 Conference Virtual Registration means that even if you can't be there in person, you can still be a part of all of **the most popular sessions presented** at the conference! All to be available to you a week after the ILT2014 Conference is over. And viewable for a full 12 months afterwards!

Even if you are at the conference in person, adding on a Virtual Registration gives you access to these awesome resources **supporting a full year** of presentations and collaborative IT strategy planning on your return-to-base!

How will this Virtual Registration option look?

All sessions will be professionally recorded using two cameras ensuring that both the presenter and the content being shared on-screen with delegates is captured. View the presenter or the slides in full screen view. Or view both together. Want to go to a particular slide or point of interest? No problems. Just click on the slide that interests you, and the presenter's words around that topic will be played automatically for you. And all supporting resources, handouts and presentation files will be downloadable too!

A mock-up sample of the Virtual Registration page can be **viewed online**.

Ready to sign up? Purchase your Virtual Registration now at Spectronics.com.au/conference/virtual
